*2. Restriction Requirement*

In response to the restriction and species election requirements, Applicants elect Group I, which includes claim 1, now canceled, and new claims 7-22; and SEQ ID NO: 4. The claims that read on the elected species are claims 7-11 and 15-22.

The foregoing group and species elections are made with traverse as the six groups set forth by the Examiner all stem from a common concept and theory, and are thus related. As such, prosecution of the claims together would not place a substantially greater burden on the Examiner. Accordingly, Applicants respectfully request that the Examiner withdraw the Restriction Requirement.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 415-576-0200.

Respectfully submitted,
